Tips for creating rainbow designs:

Rainbow Cakes are life changers. Literally you can cover the background of a design in under a minute with perfectly blended colors. If you are having trouble using **Rainbow Cakes** try using a petal sponge since its smaller and might be easier to use until you get the hang of it.

In the past if you wanted to create a multicolored design you needed to lay down color by color. **Arty Cakes** let you create amazing rainbow designs in one stroke of your brush. **Arty Cakes** are best used with a brush like the Arty brush large (3/4 flat brush)

THE BEST most underrated product for face painters. Starblend is a dry powder that can be applied as a base coat for designs like spider-man eyes, white tigers, skulls, ghosts and any other time you want a white base. I **HIGHLY** recommend it when doing rainbow designs because the colors don't bleed or the white doesn't dull the rainbow colors. Its also amazing to use with stencils so you don't get the bleeding under the stencils. its a **MUST** have and lasts forever

Latest and GREATEST! Love love love my horn OOh stencil such a great tool to have in your kit

Arty Cakes usually have a light and dark side so they help you create outlines and contours with one stroke. As a guide use the dark color on the outside and lighter colors in places you want to highlight

Glitter cremes are the bomb.com: Glitter cremes are awesome because they go over paint without smudging it and the glitter is so soft. It's like velvet and lasts all day. It's even comfortable to wear over the eyes

Starblend is applied dry which means you can apply color directly on top, no waiting for the white base to dry also no bleeding into or dulling the color. This speeds up the rainbow effect and is more comfortable with the powder base.

Noses: Shapes Matter

Round Down Round Nose
Good for puppies, Bunnies and Cheetahs

Cute Heart Shaped Nose
Good for kitties, rainbow tigers and little faces

Monster Dragon Nose
Good for dragons monsters and dinosaurs

Deep U Nose
Good for Cats Bunnies and Lions

Triangle Nose
Good for tigers, Cats felines

Tip: When you want to soften or make heavy black lines less intense use a metallic color on top like gold or Ziva blue. It takes your line work to a new level

A body brush is good for more than just bodies. It's great for making large strokes with your arty cakes for crowns and masks

Tiger and animal marking tip: Make a tiger line and then add an extra oval to the middle to give the line a different shape
